Venues

Throughout 2010 MTC performed its Melbourne season of plays at the MTC Theatre, Sumner and Lawler Studio, and the Fairfax Studio and Playhouse at the Arts Centre.

DIRECTOR'S REPORT

I completed my eleventh season as Artistic Director of Melbourne Theatre Company in 2010, by a good measure the longest job I've ever had; more than a fifth of my life, I'm shocked to realise. Where did all that time go? I feel a victim of an outrageous theft until a perusal of the programmes and the season brochures, the board papers and annual reports, photos and press cuttings, restores me to the sense that the time wasn't stolen, it was spent.

Our annual report is a ledger of what was spent - literally so, if you flip to the back where we keep the graphs, financial statements and various tottings-up of monies coming in and going out. But also figuratively spent, in terms of the time, effort and skill required to place a full season of productions before a discerning public. You'll find our accounting of these human resources the feature in the front part of the report, though inevitably our representation of it is threadbare. A single enigmatic photo from each production must stand for all the hours of performance (and weeks of rehearsals, too). A paltry credit list must stand for all the individual brilliancies of actors and creative people over the length of the production. A bare numeral stands for everyone who paid for a ticket and enjoyed the show, or enjoyed great parts of it (or - shame! - slinked off at interval). Finally, the press quotes, choice cutlets trimmed of their grizzle, stand for the bulk of thoughts, opinions and impressions of all who witnessed the spectacle. A theatrical year is a bird on the wing and such snapshots can only suggest the wonder of her flight.

The flight began and ended with song: light and breezy with The Drowsy Chaperone in January and more chill and minor key in Joanna Murray-Smith's Songs for Nobodies before Christmas. Australian writing was strongly represented. As well as Murray-Smith, Company favourites Hannie Rayson (The Swimming Club) and David Williamson (Let the Sunshine) spoke directly to their theatrical constituencies of bemused baby-boomers, Tony McNamara lobbed over another satire of family anxiety with The Grenade, and Daniel Keene, who is big in Europe but a neglected prophet in his own country, responded to our commission with his poetic, existential comedy Life Without Me. And you might also want to house in the Australian corral, All About My Mother, which, though based on the stunning Spanish film by Pedro Almodóvar, was astutely adapted for the stage by Londonbased ex-pat Samuel Adamson. With the year tricked out with plays by Sarah Ruhl, David Mamet and William Shakespeare, it was another strong year for writing.

And, it strikes me, an extraordinary year for performances. The heart of theatre, its beat, its life-giving energy, is the actor. Lope de Vega captured it when he said that the minimum requirement for theatre is 'two planks and a passion'. He didn't need to add that the passion is supplied by the actor. The actor is elemental, as everyone who saw The Ugly One can attest. Peter Evans's production, stripped back to a few props and a small lighting rig, thrilled its audience by placing the focus on the performances and the telling of a perfect little parable. It offers the key, I think, to how the Lawler might best be used in the future.

So often, the success of a production will rely on some unheralded actor bearing the weight of a crucial role. It seems to me we had a superfluity of such performances in 2010, but let me isolate as excellent examples, Humphrey Bower, a meld of upright posture and crooked dealings as Buckingham in Richard III; Nicholas Bell, solid and understated in Madagascar; Sue Jones, marvellously drunk and disorderly in Dead Man's Cell Phone; and Alison Whyte, brilliant - no better superlative, so why scrabble for another? - brilliant in both All About My Mother and Richard *III.* We list actors in alphabetical order on our posters as an expression of a theatrical ideal - so often realised last year - in which all performances, no matter how few the lines or brief the minutes on stage, contribute their magic to the marvel.

That's not to say we shun stars by which, incidentally, I don't mean 'celebrities'. Fame and a fan club will not carry a show. The much-vaunted charisma of stars means nothing without a depth of talent. Or, rather the talent is the charisma. It's what they do that dazzles. The way, for instance, Geoffrey Rush at crucial moments could invest a seemingly flyweight character with power and reach, so that The Drowsy Chaperone landed an unexpected emotional punch. Or Wendy Hughes, working the opposite trick in All About My Mother, could find vulnerability in her tough-as-nails diva, and thereby lead the audience carefully down those slippery steps, to understanding, then sympathy. Obviously, Ewen Leslie is a star in all but household renown (though I suspect his time is approaching) since his Richard Gloucester, prowling on Shaun Gurton's revolving set, was the

absolute cynosure of that show. And for focusing on a star performance one cannot forget Songs For Nobodies, in which Bernadette Robinson's uncanny incarnations of the great singers of the twentieth century was matched by her uncannier incarnations of 'nobodies' conjured from Joanna Murray-Smith's imagination.

You should always leave a party while there are still enough people around wishing that you wouldn't. At the end of 2010, I announced that 2011 would be my last season. I am old enough to have been schooled in the old imperial measurements, so a dozen years has a right and fitting sound. Next year's annual report is the proper place for a valedictory address; for now it's enough to make the obvious point that such a long artistic tenure could not have been possible without the sustained support, friendship and (at times) forbearance of the hardworking and expert MTC Staff - my esteemed colleagues.

Simon Phillips Artistic Director

CHAIRMAN'S REPORT

While 2009 was a year of great physical change as we embraced the new MTC Theatre and moved into refurbished headquarters in Sturt St, 2010 was a year of different sorts of changes. The major one was when Simon Phillips, our brilliant Artistic Director, announced his intention to leave us at the end of 2011. There can be no greater change than the leadership of an arts organisation, but there'll be plenty more to say about that in the 2011 annual report.

Artistic Vibrancy

This was a year of award-winning and sell-out productions, some expected, some unexpected. As soon as Geoffrey Rush joined Simon's production of The Drowsv Chaperone, we were as sure as you ever can be in show biz that we'd have a hit. A sell-out extended season and Helpmann and Green Room Awards proved it to be so. The sleeper was *Richard III*. Although it was one of the lowest selling shows to our Subscribers on the initial offer, it began to sell out within minutes of the tweets and blogs starting to report on the show. Our Associate Directors Peter Evans and Aidan Fennessy also contributed to the artistic strength of the Company through both their main stage productions and their commitment to developing new work and new artists.

We presented four world premieres, of which two plays were originally commissioned by us, and four Australian premieres - so our main season was rich with the new, entertaining and challenging. We also worked with two other major companies, Black Swan State Theatre Company and Queensland Theatre Company, to enable Melbourne audiences to see the work of other artists and other directors. We also developed new work and new artists through commissions, public and private play readings, employment opportunities for young directors and debut opportunities for many actors.

Audience

We hoped that 220,000 people would pay to see our main subscription season and considerably more did so. We sold tickets to 237,000 in Melbourne, an increase of 7.7%. It's never an even increase of course, seven plays performed better than expected and four plays worse than hoped for, but overall it was our best sales year since 2003. We also managed to attract over 21,000 Subscribers which was our highest number for at least twenty years.

In addition, The Grenade was seen by over 15,000 people in Sydney and Songs for Nobodies had its world premiere in Geelong. With Max Gillies in our 2009 production of Godzone touring with the help of Playing Australia and Regional Arts Victoria, we were also seen by another 7,270 people in regional South Australia, Victoria and metropolitan Sydney. Over 6,500 students and teachers experienced our Education Program and our activities in the Lawler Studio, including productions, play readings and support for other performing arts companies, attracted additional people to our new theatre.

Financial Results

Our financial results are complex this year, as a number of accounting transactions, mainly to do with the removal of our old HQ and partfunding our new HQ, came into play. For those who love making sense of this, our detailed report starts on page 58. The most important result to note is that, thanks to the strength of the box office, improved interest rates and controlled expenditure, we made an operational surplus of \$1.6million. This is after returning some of the surplus to our hard working staff, who accepted modest pay rises at the beginning of the year because of our nervousness about the economic climate. Our surplus will enable us to repay in full the amount we used from the Reserve Incentive Scheme to pay for our Sturt Street building.

The MTC Theatre

Having survived the first year in our theatre in 2009, we were looking forward to a less frenetic pace in 2010, but the weather intervened. Melbourne suffered a torrential hail storm in March and the theatre was badly damaged in almost all areas, though it spared the auditorium. Thanks to the dedication of MTC staff, with help from the University of Melbouvrne, we were back performing again after a week, but had to close the theatre for seven weeks in November and December to do major repair work.

Corporate Governance

As you will know if you're an assiduous reader of our Annual Reports, MTC is a semi-autonomous department of the University of Melbourne. The Board is appointed by the University Council and reports to them, so our governance processes are doubly rigorous given the requirements of the University and our government partners, the Australia Council and Arts Victoria. The Board met eleven times in 2010 and receives detailed reports about all aspects of the Company's operations. The only change to the Board in 2010 was the departure of Professor Sharman Pretty and the appointment of

Jonathan Feder, Senior Associate at Middletons. The Company is lucky to have a Board full of genuine enthusiasts who give generously of their time and expertise.

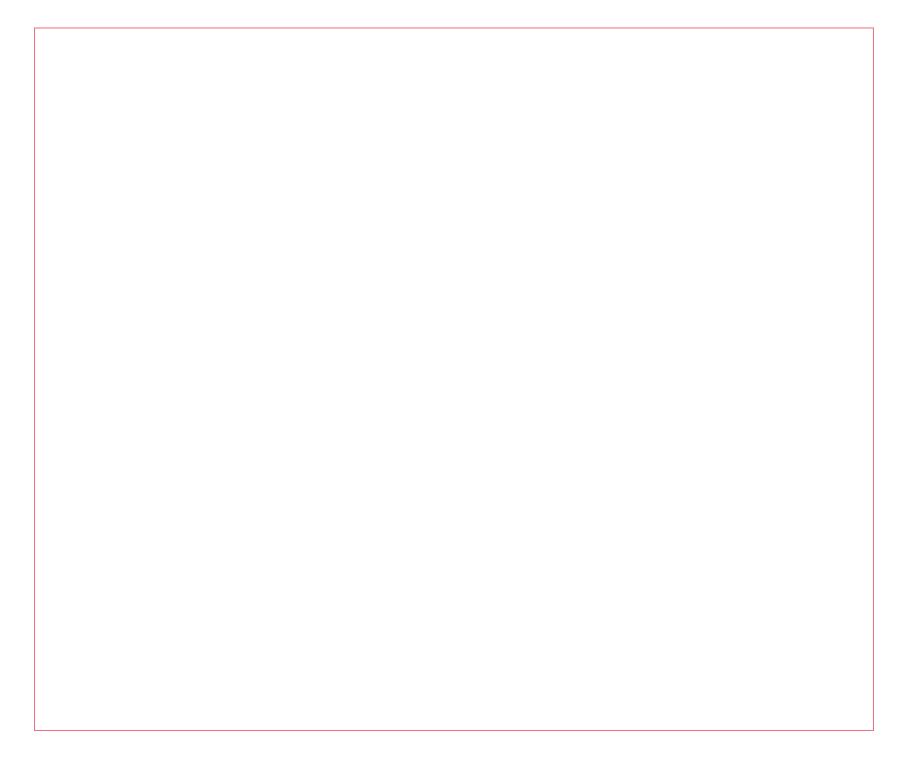

Conclusion

Under the artistic leadership of Simon Phillips, MTC achieved great artistic results for an increased audience, generating a surplus that will contribute to the future stability of the Company. No Chairman can ask for more.

Australia Post

'Disliking *The Drowsy Chaperone* would be like disliking kittens: pointless and somehow inhuman. This is a preposterous cocktail of a show, delivered with just enough lemon to cut against the syrup, and Melbourne Theatre Company artistic director Simon Phillips has given it a superb production ... They generate pure comic show biz, with a sparkle heightened by Dale Ferguson's ingenious set and spectacular costumes. A sure-fire crowd pleaser.' **Alison Croggon,** *The Australian***, 25 January 2010**

'Rush is perfect for the role ... [H]e provides a brilliantly observed portrait of an ageing New York theatre queen, peppering the show with mordant wit and gentle clowning in a way that tempers (and occasionally accentuates) the burgeoning inanity of the musical itself. It's a performance that celebrates escapism and the solace of obsessive enthusiasm, though not without ambivalence and a whiff of sadness.'

Precision Dentures

'It has been some time since we have seen a Hannie Rayson play and she has been sorely missed. Her writing is funny, yet rich with layers for those who want to listen. *The Swimming Club* is a lively and thoughtful play that speaks potently about the pain in modern life ... This is heartening work, warmed by the sense of familiarity.'

Catherine Lambert, Sunday Herald Sun, 14 February 2010

'This is far and away the best, the wisest and most entertaining play Rayson has written. Rayson has some great insights into life for the struggling middle classes, those not quite wealthy enough to be free. The characters Hannie Rayson presents in *The Swimming Club* ... are so knotty and interesting, it's easy to imagine play after play using the same lot. Caroline Gillmer, Tina Bursill and Nicholas Papademetriou are an outstanding support cast.'

Chris Boyd, Herald Sun, 8 February 2010

'The production is so accomplished. It's perfectly cast. Director Sam Strong draws out the shroud of domestic conflict that covers the play, creating a clean, austere production. Noni Hazlehurst's performance as a domineering mother is charismatic and complex ... Asher Keddie holds the stage as a young woman tormented by grief. Nicholas Bell is persuasive in the unenviable role of a socially awkward economist.' **Cameron Woodhead**, *The Age*, **19 February 2010**

'Madagascar is a mesmerising and superbly acted and directed production. Noni Hazlehurst gives an inspired and subtle performance ... [Asher] Keddie is pale, luminous and fragile as June ... Bell plays him (Nathan) with vibrating anxiety and self-doubt. [J.T.] Rogers's dialogue is intelligent, articulate, witty and caustic, with many compelling observations.' **Kate Herbert, Herald Sun, 22 February 2010**

Epicure Catering

'In this semi-absurdist work by Tony McNamara, the cast of colourful, wonderfully distinct characters, makes this an amusing and fun night at the theatre. Family life has never looked so authentic and entertaining. [Garry] McDonald's inherent compassion for Busby comes through in this performance, presenting him as a man who is clearly ruthless and vindictive, but for whom we also feel sorry. Mignon is a star in the making and Gig Clarke ... also has great comic timing and stage presence.' **Catherine Lambert, Sunday Herald Sun, 18 April 2010**

'Everything about MTC's production, from direction to design, is clean, smart and polished. There are plenty of laughs and very clever writing. The Melbourne Theatre Company has assembled an impressive cast and [Tony] McNamara creates some memorable characters for them. Newcomers Gig Clarke and Eloise Mignon turn in entertaining performances as the nerdy teenage sweethearts. Jolyon James is remarkable at maintaining the suspension of disbelief ... while Belinda Bromilow treads a fine line as Busby's new wife Sally.'

Absolutely not to be missed. Go see MTC's exhilarating *Richard III*, in which Simon Phillips has given us a Richard for our time. This production is a triumph at every level. Phillips's ambition calls for fearless, passionate acting, and we get it. There are at least half a dozen astonishing performances in this show ... Shaun Gurton's beautiful and surprising design uses a revolve to move the action seamlessly from boardroom to parliament to hospital. Nick Schlieper's lighting creates some breathtaking transformations.'

Alison Croggon, The Australian, 3 May 2010

'In Simon Phillips's sophisticated new production, Richard becomes a thoroughly contemporary villain, a ruthless opportunist straight from the hallways of media-driven presidential politics. Ewen Leslie makes a thoroughly convincing Richard ...There is a terrific support across the ensemble, particularly Humphrey Bower's nuanced Buckingham, and Zahra Newman's knockout performance of Catesby. The highlight comes ... where Alison Whyte creates an extraordinarily powerful picture of grief and torment. Ultimately the production confirms just how powerful Shakespeare remains as a contemporary critic of power and mendacity in society.'

Martin Ball, The Age, 1 May 2010

BOSTON MARRIAGE BY DAVID MAMET

Subscriber Briefing 31 May Forum Night 14 June Audio Described Performances 6 and 10 July

'The Boston wives in this play, Anna (Pamela Rabe) and Claire (Margaret Mills), are fast-talking and smart-mouthed, educated and cultivated. They have expensive tastes but lack independent means, so Claire relies on Anna and Anna relies on wealthy married men. Like an Oscar Wilde comedy, Boston Marriage is a trivial play for serious people. It sparkles like a brilliant cut diamond. In this production, impressively directed by Aidan Fennessy, Rabe's Anna struts and frets and insults the fired help. Mills, the perfect foil, plays the egotistical lover with icy grace."

Chris Boyd, Herald Sun, 11 June 2010

'American playwright David Mamet penned this female-only story of *fin-de-siecle* lesbians looking to find security - financial, personal - in a less than tolerant society. The result is an oddly gruff, blokey comedy played out by a trio of outstanding Australian women ... [W]hen the performers embrace the camp excess required of them, the production exceeds its source by offering dazzling performances in an intoxicating setting. John Bailey, Sunday Age, 20 June 2010

DEAD MAN'S CELL PHONE

BY SARAH RUHL

CAST PARTNER

The Captain's Choice Tour

'David Williamson's *Let the Sunshine* is a populist social satire that justifies the praise and the criticism heaped on Australia's most successful playwright. Williamson's ability to sketch vivid caricatures from life shouldn't be underestimated. This is a play guaranteed to remind you of someone you know. Achieving that kind of recognition is a rare talent. Add in a gift for witty one-liners, and you've got a play that will keep the punters happy.'

Cameron Woodhead, The Age, 2 August 2010

'Theatre audiences eagerly await a new David Williamson play and he remains one of our most popular playwrights. His latest work, *Let the Sunshine*, is the best he has produced for years. Funny, bright, sharp and with beautifully drawn characters, it is a feast of delights. It brilliantly conveys some of our deeper social habits while also being very pleasing on more superficial levels as well. These characters are all easily recognisable but the cast gives them individuality. All the performances are superb. Williamson is still one of the greatest, challenging us and knocking on our all-too-safe doors at every opportunity.'

'Life Without Me is the best Australian play in ages ... A supremely wellmade play, it burgeons into absurdist farce, retreats into philosophical unease, and sculpts moments of fission and fusion from banal exchanges. Set in the lobby of a rundown hotel, *Life Without Me* presents characters vexed by a thereness they can't live up to.' **Cameron Woodhead**, *The Age*, **18 October 2010**

'In Daniel Keene's unlikely crowd-pleaser, the past - the sum of our memories, actions and connections - is an anchor binding us to a hopeless, banal and meaningless half-life. *Life Without Me* is at once exasperating and engrossing. It emulsifies farce and wistful lyricism with the skill of a master. In fact, it is difficult to imagine the play better produced than it is here under the easy direction of Peter Evans. There's gleeful confidence in all the comic business: the pratfalls, sight and sound gags. Load-bearers Menzies and Stone are a joy to watch, but the entire cast is equally and admirably well-rehearsed.'

Chris Boyd, The Australian, 18 October 2010

Subscriber Briefing 1 November Forum Night 15 November Audio Described Performances 7 and 11 December

'Songs for Nobodies is a simple conceit: the great singers of the twentieth century are summoned, with a kind of theatrical voodoo, through the recollections of the anonymous people who loved their songs. And with the miraculous voice of Bernadette Robinson as her medium, Joanna Murray-Smith is on a winner ... The variety of accents and characters permits Robinson to demonstrate her virtuosic acting skills. But the real draw of this show is her voice, which shifts from the smoky blues of *Holiday* to the vibrant contralto of Cline with startling ease. Her performances of Piaf and Callas, however, strike another chord altogether: they rise beyond virtuosity to the sublime.'

Alison Croggon, The Australian, 12 November 2010

'Bernadette Robinson's performance is theatrical alchemy. She mysteriously and instantaneously transforms before our eyes into ten different women: five nobodies and five famously talented, damaged singers. She is remarkable and compelling, her singing thrilling and her characters diverse and sympathetic. The collaboration between writer and performer is impeccable and Murray-Smith's monologues create a complex, credible emotional landscape ... Bravissima!'

LITERARY MANAGER'S REPORT

PLAY READINGS

In 2010, our Emerging Artists Development Program again threw three teams of writers and director/ dramaturgs together to develop a new work from its inception. An artist development program aimed at exploring the complex matrix that is artistic collaboration, the six month process, supported by the Australia Council, culminated in public readings of the three works at the Lawler Studio in November 2010. Writer Michele Lee worked with director Sarah McCusker on Roundabout: David Mence worked with director Anne-Louise Sarks on The Gully; and Natasha Jacobs worked with director Petra Kalive on If I Can Dream.

Again, thanks to the generous support of the Cybec Foundation, in September 2010 we were able to host a series of readings to showcase some of the projects emanating out of the MTC Commissions Program. The readings were The Dream Life of Butterflies by Raimondo Cortese. This is How, an adaptation of MJ Hyland's novel by David Tredinnick. and You Won't Be Seeing Rainbows Anymore by Tom Holloway. These readings showed the depth and diversity of creative vision with which MTC is currently engaging. The audience response was overwhelming. We are also pleased that Raimondo Cortese's The Dream Life of Butterflies was subsequently programed as part of the 2011 Lawler Studio Season.

Our commissions program, supported by the Joan and Peter Clemenger Trust, continues with new commissions given to Kate Mulvany, Mellissa Reeves, Robert Reid, David Woods and Daniel Keene. Writer Angela Betzien and director Leticia Caceras were also commissioned to produce a new work for our Education Department.

The Lawler Studio had only one MTC outing in 2010 with the tremendously successful The Ualv One by Marius Von Mavenburg (translated by Maia Zade). This short, sharp stab of a play was beautifully directed by Peter Evans with a stellar cast including Kim Gyngell, Alison Bell, Luke Ryan and Patrick Brammall. The play garnered universally strong critical acclaim and won audiences whilst presenting our Subscribers with a real point of departure from our main stage works. However, 2010 was by and large about building capacity and finding funds to produce a larger season of work that will see five MTC productions staged in the intimate and flexible Lawler Studio in 2011.

EDUCATION MANAGER'S REPORT

In 2010, MTC Education branched out in many new directions. For the first time, we presented a full production in the Lawler Studio, Ruby Moon by Matt Cameron. We introduced the Ambassador Program, offering a unique and eve-opening experience to a group of keen theatre students. Through the support of the Tattersalls Foundation, we were able to reach out to even more regional students through our Travel Subsidy Program, and we offered greater access to our Mainstage and Studio program through a series of Pre-show Talks and Teachers' Notes. All these new initiatives, along with our existing program, made for a busy but incredibly rewarding year for MTC Education.

Ruby Moon proved exceptionally popular with school groups. Student attendees played eye-spy with Andrew Bailey's towering set of knick-knacks before the lights went down, sat forward in rapture throughout the play and after the curtain call, exploded into conversation, deconstructing the show with their classmates. Listed on the VCE Drama playlist, the production sold very well and an extension of four performances was required to meet the demand. This production was a first for MTC Education - a full production which had its own set design and a season which included both matinee and evening shows, with all performances open to both school groups and the general public. MTC Associate Director Aidan Fennessy, who directed the first production of the play for Playbox in 2003, returned with Tyler Coppin and original cast

member Christen O'Leary. A huge success for MTC Education in every way, the show was an exciting pay-off for the Company's renewed investment in the artistic vibrancy of the Education program.

In addition to Ruby Moon, MTC Education presented a re-mount of our 2009 production of Explorations: A Streetcar Named Desire. Fated to be the last of our long-running Explorations series, where the performance of key scenes from a play is integrated with educational commentary. Streetcar welcomed back 2009 Director Brett Adam and the original cast of Jav Bowen. Georgina Capper, Stephen Phillips and Katherine Tonkin. The production illuminated the context of Whose Reality? within the VCE English curriculum, and school groups were unanimous in their praise of both the staging and the educational content.

Another first, the inaugural MTC Ambassador Program gave a group of twenty-six year eleven students an extension opportunity which lasted throughout the year. Ambassadors attended monthly meetings at MTC, where they heard from industry professionals, attended MTC productions and engaged in in-depth discussions with like-minded peers. In turn, Ambassadors became representatives for MTC within their school and social communities; sharing their experiences through Facebook, blogs, and school newsletters. Feedback about the Program from the Ambassadors, their parents and their schools has been incredibly

positive. The response from Ambassadors about the productions that they attended in 2010 has also helped to shape the future of MTC Education programming.

Through the generous support of the Tattersalls Foundation, MTC was proud to present the ninth annual Youth Scholarship Course, which offers geographically, economically and educationally disadvantaged students the opportunity to attend a free, week-long, intensive drama program in the school holidays. This year the course took place at the Lawler Studio, and welcomed twenty-eight students, including eight who were also provided with accommodation for the week. In addition to the course, the Tattersalls Foundation also enabled us to create the MTC Tattersalls Regional Travel Subsidy in 2010, a fund which provides access to MTC productions for schools that would otherwise be unable to attend. due to the rising cost of transport. Economically disadvantaged students from Melbourne and the regions were also provided with an opportunity to apply for free or reduced-price tickets to MTC performances through the Sidney Myer Geoffrey Cohen AM Scholarship Fund.

School group attendance at MTC Mainstage productions increased to over 5,100 in 2010, due in part to the staggering success of *Richard III* and its popularity with schools. Over 2,100 students attended *Richard III*, which was listed on both the VCE English Text List and the VCE Theatre Studies Playlist, and won the 2010 award for Best Performance by a Theatre Company for VCE Drama and/or Theatre Studies from Drama Victoria, the state Drama Teachers' Association. MTC Education also introduced Pre-show Talks and teachers' notes for many 2010 productions and the Teachers' Notes for *Ruby Moon*, prepared by Meg Upton, won the Drama Victoria Award for Best Resource Kit for Drama and/or Theatre Education.

In addition to all these new initiatives, MTC Education continued to provide many of our program staples including our VCE Summer School, Solo Performance and Monologue Performance Workshops, Production Analysis Forums, Production Headquarters Tours and Work Experience program.

THE COMPANY

By the time you've reached this part of our Annual Report, you've picked up all the artistic highlights (brilliant, award-winning shows) and shocks (resignation of Artistic Director!), plus the business highlights (record Subscribers, better-than-budget ticket sales, healthy surplus) which leaves me to concentrate on the staff and the buildings.

First of all - the people. I write this shortly after our Company morning tea to welcome British director Maria Aitken. She said that the reason she was willing to travel so far was because of the extraordinary people that make up Melbourne Theatre Company. And she's right - it is an extraordinary team. While a few staff fled the coop after many years of dedicated service (Margaret Bourke and Louise McRoberts from the **Production Department deserve** special mention), they were replaced by equally smart and caring people. Whether it's the long-serving loyal teams in workshop, props, scenic art, technical and wardrobe departments or the enthusiastic short term stage managers and ticketing and theatre staff, people work for us because they care about theatre. And so my thanks go to all of them. And of course, there are special thanks from Simon and me to our management team who all had their challenges in 2010:

- Dale Bradbury for continuing to bring great forensic skill to any aspect of the organisation that involves money and systems
- Trish Carlon, MTC Theatre Manager for coping with the brutal battering taken by our beautiful theatre by the once-in-a-century hailstorm, the damage from which we're still grappling with a year after the event

- Peter Evans and Aidan Fennessy for bringing such art and heart to their roles as Associate Directors
- Christy Hopwood whose capacity to keep a secret (Simon's resignation) is only matched by her capacity to keep the media on side
- Adam Howe for taking on the huge job of Head of Production
- Kylie McCormack, who as Casting Director, has to be both tough and sensitive every day
- Vanessa Rowsthorn, who's continually on the cutting edge of marketing ideas to keep us in front of the game
- Tracey Webster manages to stay serene even when her empire guadruples each year at subscription time
- Julia White, a Development Director who cares about the people who give money as well as the people who spend it.

As for the buildings, if 2009 was the year of moving in, 2010 was the year of settling down - but with one major challenge. We survived the worst that Melbourne could throw at us in terms of weather - but only just. The Southbank area was particularly badly hit by a hail storm in March.

We had to close the MTC Theatre for a week during (ironically) The Swimming Club and then for a further seven weeks later in the year to replace floors and walls and ceilings due to hail damage. The University of Melbourne continues to support us at such challenging times and we're particularly grateful to the help from Property and Campus Services as well as the patience of Brendan and Adam Keyte from Script Bar & Bistro as we refurbished the building around them.

Our Sturt Street Headquarters was more robust in the face of bad

MTC Theatre, Ground Floor flooding, March 2010

weather and we continue to love the fact that we're in an airy, light building within walking distance of all our friends in the Sturt Street/Southbank Arts Precinct.

For those who are fascinated by management as well as art, other major projects in 2010 included an upgrade of our finance and IT systems, the introduction of digital marketing expertise into the team, modifications to our website and ticketing system, improvements in our environment, health and safety management, increased investment in training of staff and generally trying to do what we do more efficiently and effectively.

The best aspect of 2010 was the virtuous circle of art and money at play. We raided all our reserves to make the final payment on the Sturt Street HQ refurbishment so that the people who make the sets and costumes, rehearse the plays and do the marketing and fundraising and pay the bills could be housed in a civilised work environment. In their new healthy, better work place they contributed to making wonderful theatre productions. Because of the award-winning quality of their work, more people came to the theatre than we could have hoped for, and, as a result, we made a financial surplus as well as great art. This means that in 2011 we can pay back those reserves - and create a more secure financial future.

4 February 2011

Mr D Young Chairperson Board of Management Melbourne Theatre Company

Dear Mr Young,

AUDIT CERTIFICATE

AUDIT SCOPE

I advise that an audit has been conducted of the financial statements of the Melbourne Theatre Company for the year ended 31 December 2010, comprising an Income Statement, Balance Sheet and Statement of Changes in Equity, Cash Flow Statements, and notes to the financial statements.

The audit was conducted in accordance with Australian Auditing Standards to provide reasonable assurance as to whether the financial statements are free of material misstatement. The audit procedures included an interim review conducted during the year and an examination, on a test basis, of evidence supporting the amounts in the financial statements.

AUDIT OPINION

In my opinion the financial statements present fairly the financial position of the Melbourne Theatre Company as at 31 December 2010.

Would you please table this report and the attached financial statements at the next scheduled meeting of the Board noting that the accounts of Melbourne Theatre Company are still subject to review by the Auditor-General's Office.

Yours sincerely,

PfineGreff

PJ McGrath Director, Internal Audit

cc. Mr S Phillips Artistic Director, MTC

1 Statement of Accounting Policies

The principal accounting policies adopted by MTC in the preparation of the financial report for the year ended 31 December 2010 are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

1.1 Basis of Preparation

This special purpose financial report has been prepared in accordance with Australian equivalents to International Financial Reporting Standards (AIFRS's), the Financial Management Act 1994, Urgent Issues Group Consensus Views and other authoritative pronouncements of the Australian Accounting Standards Board. The financial statements have also been prepared in accordance with the guidelines issued by the Department of Education, Employment and Workplace Relations (DEEWR).

"Compliance with IFRSs

Australian Accounting Standards include Australian equivalents to International Financial Reporting Standards. Compliance with AIFRSs ensures that the financial statements and notes comply with International Financial Reporting Standards (IFRSs). The financial statements and notes also comply with IFRSs except that it has elected to apply the relief provided to parent entities in respect of certain disclosure requirements contained in AASB 132 Financial Instruments: Presentation and Disclosure, AASB 124 Related Party Disclosures and AASB 116 Property, Plant and Equipment."

"Reporting basis and Conventions

MTC is considered to be a not-for-profit entity, as such the financial report has been prepared in accordance with the not-for-profit requirements of AIFRS. The financial statements have been prepared on an accruals basis and are based on the historical cost convention as modified by

Note Supporting Notes to the financial statements -No.

the revaluation of available for sale financial assets, financial assets and liabilities at fair value through profit or loss, certain classes of property, plant and equipment and investment property."

"Critical accounting estimates

The preparation of financial statements in conformity with AIFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances."

"(a) Critical accounting estimates and assumptions

MTC makes estimates and assumptions concerning the future. The resulting accounting estimates will by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year include impairment of assets as described in note 1.4 of the financial report."

"(b) Critical judgements in applying the entity's accounting policies

MTC does not apply any critical judgements that may have a material impact on the amounts presented in the Financial Report."

1.2 Non-Current Assets

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

(i) Freehold Land and Buildings

The freehold land and buildings are recorded in the Balance Sheet at:Independent Valuation. An independent valuation of land and buildings belonging to MTC was carried out as at 31 December 2009 by Cunningham Property Consultants Pty Ltd. All buildings valued at replacement cost with an allowance for depreciation to reflect the present condition of the buildings. The current values of land and buildings are disclosed in Note 15. The amount of revaluation is disclosed in Note 21.

(ii) Motor Vehicles

Recorded in the Balance Sheet at cost less depreciation and where applicable, any impairment losses. Profits in respect of the sale or trade-in of motor vehicles are included in Note 5 to the Financial Statements.

(iii) Furniture and Equipment

Recorded in the Balance Sheet at cost less depreciation and where applicable, any impairment losses. Profits and losses in respect of disposals are included in Note 5 to the Financial Statements. MTC has a policy of only recording as fixed assets furniture and equipment costing \$10,000 or more. Items under \$10,000 are expensed.

(iv) Depreciation

Depreciation is provided on a straight line basis on all tangible fixed assets other than Freehold Land which is not depreciated. Major Depreciation Rates are:

- Buildings 3%
- Motor Vehicles 20%
- Furniture, Fixtures and Fittings 12.5%
- Telephone Equipment (PABX System) 33.3%
- General Equipment 20%
- Scientific and Computing Equipment 33.3%

These rates have been consistently maintained and there has been no change from rates applied in prior years. Acquisitions are depreciated from the date of purchase; disposals are depreciated up to the date of sale.

1.3 Impairment of assets

At each reporting date MTC assesses whether there is an indication of impairment for all assets except for, inventories, assets arising from employee benefits, investment property and financial instrument assets. If there is an indication of impairment, the assets concerned are tested as to whether their carrying amount exceeds the recoverable amount, the difference is written-off by a charge to the Income Statement except to the extent that the write-down can be debited to an asset revaluation reserve amount applicable to that class of asset.

At each reporting date assets previously determined to be impaired are assessed for circumstances indicating that an impairment loss recognised in prior periods no longer exists or may have decreased. If there is an indication that the impairment loss has been reversed, the assets concerned are tested as to whether the recoverable amount exceeds the carrying amount, the difference not exceeding the original impairment is credited to the Income Statement except for revalued assets which are credited to an asset revaluation reserve.

Where it is not possible to estimate the recoverable amount of an individual asset, the University estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Statement of Accounting Policies (cont)

1.4 Intangible assets

"Software

Major computer software is recorded in the Balance Sheet at cost less amortisation and where applicable, any impairment losses. Only the cost of the software is capitalised, installation costs are expensed in the Income Statement in the year they are incurred. Amortisation is provided on a straight line basis at the rate of 33 1/3%."

1.5 Employee Benefits

Provision is made for the MTC's liability for employee benefits arising from services rendered by employees at the reporting date. Employee benefits expected to be settled within one year together with entitlements arising from wages and salaries, annual leave which will be settled after one year, have been measured at the amounts expected to be paid when the liability is settled, plus related on costs. Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits.

(i) Annual Leave

Liabilities for annual leave have been determined in accordance with Australian Accounting Standard AASB 119 Employee Benefits. Annual leave is an entitlement that an employee can access at any time and is therefore classified as a current liability. In Note 19 this balance is further segmented between the balance that we believe will be taken within 12 months (any balance up to 20 days), and any balance that is likely to be taken after 12 months (any balance greater than 20 days).

(ii) Long Service Leave

"Liabilities for long service leave are measured using the nominal method and the projected unit credit method which measures the present value of expected future payments to be made in respect of services provided by employees up to the reporting date. Where there is no material difference, the nominal method is used which recognises leave entitlements of employees with more than four years service. The current portion of the liability is the amount that employees are entitled to take now. In Note 19 this figure is segmented between the amount we expect people to take within the next 12 months and that amount expected to be taken after 12 months (based on historical patterns).

There has been a change in how the LSL Provision is split between Current and non-current. Refer Note 1.14 for an explanation."

(iii) Superannuation

Employee contributory superannuation funds exist to provide benefits for MTC's employees and their dependents on retirement, disability or death of the employee. The contributions made to these funds by MTC are recorded in the Income Statement. Further details are provided in Note 6.

1.6 Revenue Recognition

"Revenue is measured at the fair value of the consideration received or receivable. Revenue is recognised for the major business activities as follows:

Operating revenues are taken up in the Income Statement in the year to which they apply. Revenue from rendering a service is recognised upon the delivery of the service. Revenue from the sale of goods is recognised upon the delivery of goods to customers. Income in the form of endowments and bequests is brought to account as revenue when actually received by MTC, except where they are tied to specific expenditures, in which case they are brought to account at the same time as the relevant expenditure."

1.7 Investments

Investments in University of Melbourne Pool Units are carried at fair value, and are consequently restated on an annual basis. Income is taken to account as credited to the fund.

1.8 Leases

MTC leases a property for storage in Laverton. This lease is an operating lease and payments are brought to account in the Income Statement.

1.9 Taxation

MTC is exempt from income tax pursuant to Part 50.1 of the Income Tax Assessment Act 1997.

1.10 Cash

For the purpose of the Statements of Cash Flows, MTC considers cash to include cash on hand and at bank, at-call deposits and commercial/ bank bills with a maturity of 90 days or less.

1.11 Revaluation of Non-Current Assets

Accounting Standard AASB 116 Revaluation of Non-Current Assets and requires reporting entities to measure assets within each class of non-current asset on either the cost basis or on a fair value basis. Subsequent to initial recognition, non-current physical assets, other than plant,

Note Supporting Notes to the financial statements - No.

equipment, vehicles and intangible assets, are measured at fair value. Plant, equipment and vehicles are measured at cost.

In accordance with the not-for-profit requirements of AASB 116, revaluation increments are credited directly to the asset revaluation reserve, except that, to the extent that an increment reverses a revaluation decrement in respect of that class of asset previously recognised as an expense in net result, the increment is recognised immediately as revenue in the net result.

Revaluation decrements are recognised immediately as expenses in the net result, except that, to the extent that a credit balance exists in the asset revaluation reserve in respect of the same class of assets, they are debited directly to the asset revaluation reserve.

Revaluation increments and decrements relating to individual assets within a class of property, plant and equipment are offset against one another within that class but are not offset in respect of assets in different classes. Revaluation reserves are transferred to accumulated funds on derecognition of the relevant asset.

1.12 Comparatives

Comparative figures have been adjusted where there are changes in presentation for the current financial year unless otherwise stated.

1.13 Rounding

All amounts shown in the financial statements are expressed by reference to the nearest dollar unless otherwise specified.

1.14 Changes in Accounting Policy

In 2010 a change has been made to the Current/Non-Current split of Long Service Leave liabilities. In prior years, the LSL liability of an employee with less than 10 years service was considered Non-Current. For 2010 and forward, this has changed to less than 7 years, in recognition that an employee can take their entitlement after 7 years if they terminate. No restatement has been made for the 2009 comparative.

In 2010 the Victorian Arts Centre (VAC), where MTC now performs 50% of its works, changed the way it accounts for ticket sales. Previously the VAC considered the inside ticket fee as a transaction between it and the customer rather than as a charge on MTC, and hence they only accounted for ticket sales to MTC on a net basis. In 2010 the VAC changed this policy and it now reports the full value of ticket sales to MTC and seperately charges MTC for the inside ticketing charge. The effect of this is an increase in the reported Box Office Revenue and an increase in Ticketing expenses. For 2010 this equates to an increase of \$254,186 in both of these lines compared with the previous method.

Scheme Reserve	0	1,814,553
	32,392	1,814,553

The Incentive Scheme Reserve Investment came about through grants from The Australia Council and Arts Victoria of \$373,000 each, as well as a contribution by MTC of \$373,000. Through agreement with the funding bodies, MTC liquidated the investment in 2010 to help pay its contribution towards the purchase of the land at its new head quarters at 252 Sturt St Southbank. The money taken from the fund is to be repaid by MTC within a 5 year period.

To 31 December 2010 MTC has contributed \$4,004,085 towards the Sturt St Head Quarters project, and this contribution is recognised as an interest in the land value. The funds contributed have come from the liquidation of the Reserves Incentive Scheme investments \$1,856,505 and from donations from the Capital Fund \$2,147,580.

With the delivery of the new MTC Theatre to the University of Melbourne by the Victorian State Government in December 2008, the University wrote off the balance of the accumulated deficits that MTC accrued in the 1990's by way of a reduction in the balance of this Loan by \$3,533,591 in 2008. The remaining \$387,747 has been forgiven in 2010. These writedowns of debt have been reflected in the P&L as a Forgiveness of Debt Income in the relevant years.

24 Unrecognised Funds

1. Capital Fund

"In September 2007 MTC launched a \$5m capital campaign to raise funds to assist with the fit out of the new MTC theatre on Southbank Boulevard (which opened in January 2009) and the new MTC headquarters in Sturt St Southbank (opened in October 2009). During 2010 MTC received donations totalling \$87,180 bringing the total received to date to \$2,725,821. In 2010 MTC withdrew \$2,668,972 from the fund, covering prior year claims owing to MTC of \$521,393, plus new funds to assist with the payment for MTC's new HQ at 252 Sturt St of \$2,147,580. These new funds have been recognised as Non-operational Income in these accounts along with an unpaid claim of \$1,865 for 2010 campaign operating costs (2009 \$25,231). The remaining funds are being invested in short term assets, and income earned on these funds during 2010 totalled \$146,901 (2009 - \$65,528). The balance of the Capital Fund net of claims from MTC as at 31 December is \$252,517 (2009 - \$2,300,670).

The funds are held in trust by the University of Melbourne, and will be distributed as required to meet the intended objectives of the Capital campaign."

2. Endowment Fund

In parallel with the creation of the Capital Fund, MTC also created an Endowment Fund in 2007. The aim of this fund is to build a pool of money that can ensure the long term financial viability of MTC. At the end of the Capital Campaign, any surplus funds will be transferred to the Endowment Fund. At 31 December 2010 the Endowment Fund was valued at \$189 (2009 - \$174), and income earned on the fund during 2010 was \$9 (2009 - \$7).

3. Sidney Myer Geoffrey Cohen Fund

In 2004 the Sidney Myer Fund on behalf of Geoffrey Cohen provided an endowment of \$50,000 to the University of Melbourne for the benefit of the MTC Education Program. The net income of the fund will be applied to providing disadvantaged school students with access to a Melbourne Theatre Company ("MTC") main stage production or an Explorations event each to be known as a Sidney Myer Fund Geoffrey Cohen Scholarship. The scholarships are to be awarded by the University Council on the recommendation of the director of MTC. After a period of ten years from the 16 January 2004, the University Council, after consulting the trustees of the Sidney Myer Fund and Mr Cohen will review the value of the capital and decide whether it is to continue to be invested or the capital expended in full for the MTC Education Program."

Note Supporting Notes to the financial statements -No.

During 2010 MTC recognised as income anticipated appropriations from the fund to the value of \$2,670 (2009 - \$3,720) to cover an equivalent amount in expenses for costs of providing the scholarships. As at 31 December 2010 these funds had not been distributed to MTC. As at 31 December 2010 the capital of the Fund was valued at \$58,716 (2009 - \$57,423). The income earned in 2010 was \$2,969 (2009 - \$2,671), leaving Accumulated Income of \$5,640 in the fund."
